Rationale behind classification according to SFDR	Article 9
	This fund is based on an "impact" management process, significantly incorporating non-financial criteria. These products also pursue one or more sustainable investment aims. With this type of investment, our aim is to maximise the positive environmental and social impact of each of our investment decisions.
Engagement	Yes, organized internally
	C Link to engagement policy
Voting	Yes, organized internally
	C Link to voting policy
Best-in/of-Class	No
	We implement a Best-in-Universe approach.
ESG-Integration	Yes
	The SICAV applies a non-financial filter to the stock-picking process. On this basis, companies must have a minimum ESG rating greater or equal to 6.5/10.
Norm-based screening	✓ UN Global Compact
Themes	✓ SDGs
	The SICAV only invests in companies positively contributing to the UN Sustainable Development Goals (SDGs). We accordingly adopted a filter to limit our potential investment universe solely to companies positively contributing to these objectives. In order to identify these companies, we implemented an "Impact Score" based on 100 points.
